

# Don't Let the Goo Get You

© 1996 Stan Slaughter

## Verse 1.

There are chemicals in our world today  
that can be harmful in so many ways  
so hear my song, learn what to do  
so some poison goo, don't get you  
it could drag you down, it'll could you sick  
so if the goo gets near, act mighty quick, and

Break

don't let the goo get you 2x

## Verse 2.

The goo can go right through your skin  
so be careful what you put your hands in,  
You could breath it in through your nose  
if you can smell it, man you know where it goes,  
You could eat it or drink it, then, it'll be inside  
and you would take the goo along for the ride  
but you got to burn it up, sweat it out or  
store it in your body somehow

Break

I won't let the goo get me  
don't you let the goo get you

## Verse 3.

It could burn, it could explode,  
It could be flammable or caustic,  
You might not know, but  
Don't just pour it down the drain, don't let that goo get out again  
use it up or take it back, throw it away empty with a double wrap, but

Break

Don't let the goo get you 2x

## Verse 4.

I'm smarter than that, I read the label, Jack  
I wear goggles and gloves and breathers, Mack  
I ventilate, I wash my hands  
If we're gonna stop the goo we got to take a stand  
I'm gonna be safe every time,  
This ain't no fashion contest

Break

I'm not gonna let the goo get me  
Don't you let the goo get you

## Finale

You know you have a highly sensitive, portable chemical detector  
mounted on the front of your face  
It's your nose, Use it!!!!  
Follow it, away from trouble. That's why they put it up front.
